

**Professional Sports Training Equipment**

January 2009

Sports Attack manufactures and exclusively sells direct a full line of training equipment for baseball, softball, football, tennis and volleyball. Our patent-protected designs are used at all levels, from youth leagues to professional teams around the world.

The Hack Attack Baseball and Softball Pitching Machines have a unique three-wheel design that allows the hitter to see the ball clearly all the way through the feeding motion. These exceptional feature-rich units surpass the two-wheel machines in accuracy, variety of pitches, and versatility of operation.

The Ace Attack Tennis Machine and Attack Volleyball Machines provide a realistic release point to simulate any stroke or hit in the game, especially the hard to hit serves that often dominate upper-level play. Our new Snap Attack Football Machine will simulate a pass or punt the ball from two elevations with precision and speed that will challenge the most skilled athlete.

Sports Attack is the sole supplier for our entire line of professional sports training equipment. We sell only factory-direct to schools, clubs and individuals.

Sincerely,

*Kurt Brenner*
