

INSTALLING A BALL BAG

Step 1 Insert one arm of the ball bag frame into the appropriate holes on the frame.

Step 2 Carefully apply firm pressure to bend the other arm so that it lines up with the corresponding holes on the platform frame.

Step 3 Insert arm into the holes on the platform frame.

Step 4 A Use your palm to "whack" the ball bag frame.
Step 4 B Button will rest against frame.

Step 5 Both arms are securely in place.

Step 6 Tie ball bag straps.

INSTALLING A BALL BAG

Step 1

Insert one arm of the ball bag frame into the appropriate holes on the platform frame. The second arm of the ball bag frame will not line up with the set of corresponding holes on the platform frame. This is intentional.

Step 2

Holding on to the platform frame as shown in the photo for Step 2, carefully apply firm pressure on the second arm and bend it until it lines up with the corresponding holes in the platform frame.

Step 3

Insert arm into the corresponding holes on the platform frame.

Step 4 A & B

Still holding on to the platform frame with one hand, use the palm of your other hand to "whack" the frame (photo A) until the button rests against the frame (photo B).

Step 5

Both arms are now securely in place with the proper amount of tension to keep ball bag in place.

Step 6

You may now tie the ball bag straps to the platform frame.
