The Hack Attack Baseball Pitching Machine features an exclusive design that allows the hitter to see the ball clearly all the way through the feeding motion, acceleration and release, just like from a live pitcher. This visual arm action signals the hitter when to stride and the angle of release, giving him a live arm sense of timing and location.

The Hack Attack will throw unmatched right- and left-handed major league fastballs and breaking pitches, including curveballs, sliders, sinkers and knuckleballs. All this is accomplished by simply changing the speed of the wheels with three dials, eliminating time-consuming adjustments of the throwing head. It instantly switches to fungo work, pivoting in any direction and with real game-like spin, simulates grounders, long fly balls, deep line drives, towering infield flies and pop-ups for your catcher.

Quickly moves on and off field using two transporting wheels

Features of Distinction

	HACK ATTACK	JUNIOR HACK ATTACK
LEVEL OF PLAY	High school, college, professional, and commercial	Youth league, backyard, machine-pitch games, travel teams, drills at all levels including high school college and professional
SPEED	100+ MPH	70+ MPH
DISTANCE	60 feet	45 feet (simulates 90+ MPH)
PITCHES	Fastballs, curves, sliders, split fingers & knuckle	Same as Hack Attack
FUNGO	Pivots instantly for pop-ups, 380 ft. fly balls, grounders	Pivots instantly for pop-ups, 250 ft. fly balls, grounders
WEIGHT	135 lbs.	75 lbs.
TRANSPORTABILITY	Fits into any SUV or full size car, fits through standard doorway	Fits into any compact car, including a Mini Cooper
AUTOMATIC FEEDERS	Can use either Solo Feeder (15 ball) or the Team Feeder (150 ball)	Same as Hack Attack
POWER SUPPLY	110 VAC - 2000W generator with inverter technology (not included)	Same as Hack Attack
BALL TYPES	All types, including leather	Same as Hack Attack and 7.5" training ball
BALL SIZES	Can be converted to softball using conversion kit	Can be converted to softball using conversion kit and can also be converted to use the 7.5" diameter vision training balls

The Junior Hack Attack Baseball Pitching Machine is the major league-quality training tool designed to develop serious young players.

The Junior Hack Attack has all of the unique features of the Hack Attack including our three-wheel design that provides complete vision. In developing hitters, especially at younger ages, there is nothing more important than timing and vision.

The Junior Hack Attack will throw fastballs and all breaking pitches. At a level where simplicity is imperative, any change in pitch is quickly dialed in using the three speed knobs.

Lighter weight and extremely portable, the new Junior Hack Attack is the machine that will develop your dedicated players into the "pros" they want to be.

Fits into any compact car

The Attack Volleyball Machine shares all key features of the Attack II with the addition of a higher release point and increased speed to accommodate requirements of the men's game.

The Sports Attack volleyball machines will deliver **thousands of reps** in daily practice of serve receiving, digging and spiking. **Accuracy and repeatability** are assured in every drill, eliminating time wasting errant hits. A full range of **spins** is provided by all three machines, throwing both sharp topspins and breaking floaters to simulate match situations. The machines can also be easily rolled along the serving baseline, changing the angle of serves. The Attack and Attack II provide a **realistic serve release point** and can deliver a jump serve at international level speeds and quality. The Attack and Attack II provide actual angles from over the net and top speeds to make real game conditions a part of every **digging drill**. Rapid reps with varying intervals will meet the requirements of any **setting drill**. Accurate and consistent soft sets with no spin are provided at any angle and height.

Features of Distinction

	ATTACK	ATTACK II	SKILL ATTACK
BALL RELEASE POINT RANGE	6' to 9'-3"	5'-6" to 8'-6"	5'-3"
SERVING SPEEDS	70 MPH	60 MPH	40 MPH
SPIKING	Over Men's & Women's net	Over Women's net	From same side of net
SETTING	Yes	Yes	Yes
SPIN	Top spins to floaters	Top spins to floaters	Top spins to floaters
LOCATION CONTROL	Instant	Instant	Instant
PORTABILITY	Fits through standard doorway & into any standard size SUV or pick-up	Fits through standard doorway & into any standard size SUV or pick-up	Breaks-down to fit in the trunk of any size car
THROWING WHEEL DIAMETER	10"	8"	5"
DIMENSIONS	24" wide x 83"-124" tall (depending on head position) 50" deep (45" without throwing head)	24" wide x 79"-112" tall (depending on head position) 47" deep (42" without throwing head)	36" wide x 72" tall 40" deep
PLATFORM HEIGHT	36"	24"	n/a

The Skill Attack is the perfect individual training tool with a ball release point of over 5', not from floor level like other volleyball machines.

This small agile unit can easily and quickly be rolled anywhere on the court or in your backyard or garage. It offers a full range of spins to deliver every type of drill including serves with either sharp downspins or breaking floaters; accurate and consistent soft sets with no spin at any angle and height; and digging drills from the same side of the net with power and accuracy.

Easy transporting & storage

This unit will break down instantly for easy transportation, it will fit in the trunk of any car.

THE NEW SNAP, PASS AND KICK MACHINE

Maximize your time on the most difficult to practice phases of the game.

Quality realistic snaps without the center!

- Shotgun (5 yards) - 7 on 7 drills
- No-back offense (5 yards)
- Snaps to halfbacks (5-6 yards)
- Quick kick (7 yards)
- Short punt (7 yards)
- Extra point (7-8 yards)
- Long snap (14-15 yards)
- Bad snaps ("Fire calls")

Countless defensive drills without the quarterback!

- Interception drills
- Tip drills
- Harassment drills (avoiding completions)
- Last 2 plays of game (versus 'Hail Mary')
- Defensive drills
- Versus zone defenses
- Prevent

Precise reps without the quarterback!

- Offensive drills
- Coming to the ball
 - Sideline (out)
 - Curl (hook)
 - Slant
- Deep Passes

Emphasize the kicking game in a fraction of the time!

- Squib kicks
- Pooch kicks
- Onside kicks
- Punt return
- Kick-off return
- Long punts

NEW! from Sports Attack

Designed by Football Coaches, Exceptional Quality

Speed Control Dial
Controls ball velocity and distance

Football Throwing Wheels
Exclusive football throwing wheels require no maintenance and provide countless seasons of trouble-free use

Transporting Handle
Makes moving the machine on and off the field easy

Wheel Guards
Keeps your wheels protected and the machine operator safe

Snap Elevation Control Handle
Spring-loaded handle controls the height of the snap (trajectory)

Transporting Wheels
Large wheels make rolling machine easy. It is extremely portable!

Ball Feed Cradle
Accurate ball feed for tight spirals

Lifting Handles
Make it easy to set up machine

Easily rolls on and off field. Profile allows it to go through any door. Requires minimum storage space.

Wing Nuts
Quickly lock machine to tripod

Frame-Lock Pin
Locks machine for easy transporting

Pass & Kick Elevation Control Handle
Controls the height of the pass or kick (trajectory) – tighten for repeatability or loosen for instant pivoting

Horizontal Pivot Control Handle
Tighten for repeatability or loosen for instant pivoting

Locking Telescoping Legs
Ensure stability and quick set up

Sold separately, our remote control feeds ball instantly or delayed to allow the coach to control tempo of practice. Also allows punter and extra-point kicker and holder to work alone. (accessory item, sold separately)

PATENT PENDING

Ace Attack in ground stroke position shows open-air design that ensures this extremely low maintenance machine will give your family or club years of uninterrupted service.

Patent #7,100,594

The throwing head of the Ace Attack easily raises to serving height, delivering left or right handed serves and second serves with authentic high kicks.

The Ace Attack Tennis Machine sets up in minutes; simply roll onto court, plug in, and dial in your ball speed, spin, velocity, interval and oscillation using simple control panel dials. No lengthy programming or measurements to calculate or input. Changing strokes can be done in seconds using the controls that are conveniently placed at your fingertips. Balls are delivered at actual speeds of 105+ MPH and simulated speeds of up to 130 MPH.

Unique Features

- The throwing head quickly lowers from serving height to deliver all ground strokes including volleys, forehands, backhands and lobs.
- Three-wheel design provides an infinite spectrum of ball spins simulating any shot in the game.
- Three-wheel design also provides better gripping at three points of the ball, along with professional level speeds and unmatched pinpoint accuracy.
- Ball feed is a jam-free system with variable intervals between shots (from 1.5 to 12 seconds), that provides complete visibility of ball acceleration.
- Controls are simple and trouble-free. You can quickly and easily regulate the speed, spin, velocity, interval and oscillation.

The company is located in Verdi, a small town just outside of Reno, NV

“Professional performance based on 40 years of pitching machine design experience.”

Sports Attack was founded in 1995 in Reno, NV. To say that we are manufacturers of quality sports training equipment just seems to not capture the essence of who we are. We do not just design our products; we explore, scrutinize, analyze and engineer our products. We do not just manufacture or assemble our equipment; we build each one from the ground up, by hand, the old fashioned way. And all of it, every part, every wheel, every motor, every element of every machine is made in the United States. We view our suppliers through the lens of our mission statement, as a critical part of the design and development of our equipment. After fabrication and prior to shipment the equipment is tested thoroughly, every aspect of every unit. This insures the product reliability on which our brand is built. Our process represents who we are; distinctive and exclusive design, detailed and quality manufacturing, resulting in innovative, effective training equipment.

While the company was founded in 1995, our design and manufacturing folks pre-date the first wheel machines in the baseball industry, over 40 years ago. There have been a lot of changes over the course of these years but none greater than the introduction of the third wheel to the traditional pitching machine, finally achieving the unobstructed vision and the resulting timing so critical to hitting.

Our Mission Statement

Sports Attack will be the leader in innovative, quality sports training equipment that will enable athletes at all levels to reach their full potential and coaches to develop championship teams.
